This webinar will provide an informative overview of the topic, Boundaries! Creating boundaries keeps us emotionally safe from toxic people.

The training will be interactive; using visual aids and chat discussions to assist with teaching how to identify healthy connections with family and friends as well as the purpose of modeling how to maintain them. Setting clear boundaries has been identified as a necessary skill in all areas, yet specifically in child welfare as a result of the unique responsibility to interact with diverse populations and professions.

Those in attendance will be provided with tips and techniques to engage in mutually beneficial relationships and eliminate the guilt associated with disconnecting from unhealthy and dysfunctional people despite their roles.

AUDIO will be provided through your computer
